Dear colleagues,

I would like to start this first newsletter with thanking you all for constructive discussions at our Solstrand gathering last week. The impressions from the meeting will be very helpful for the work that stands ahead of us. I am also grateful to our rector Olsen, our dean Dahle, and the dean of the social sciences, Askildsen, for taking the time to come to our meeting and listen to our arguments in the discussions about co-organizing informatics and information science. The discussions have already led to action, and all involved parties are looking forward to a constructive collaboration forward.

For this to progress in a fruitful way I think we need to have an understanding for the standpoints of the involved parties. “Understanding” does not mean “agreeing”, but it may lead to more constructive discussions. Bachelor in information science is the study program that attracts the largest number of students in the faculty of social sciences. Due to the educational policy of our government, the income of a faculty is very closely connected to its number of students. This important point is seemingly left out of the discussions, but it needs to be addressed in a way that is acceptable to all involved parties, to be able to converge to a solution. As Mike Fellows pointed out, the process we are going through is typical around the world, as computer science is a relatively new discipline, and it emerged in various fields at the same time. Looking at how other well renowned universities have solved this problem can be a good idea in the process ahead. I will keep you updated on the progress that our university makes on this matter.

I wish you all a nice weekend!
-Pinar

Actualities

Faculty and staff lunch 9th May
We invite faculty and permanent staff (faculty, tenure track faculty, adjunct faculty, emeriti, administration, technical support and permanent research staff) to our first monthly "faculty and staff lunch" on Wednesday 9th of May at 12:00 in the lunch room on the 4th floor. There will be sandwiches and a short presentation every time.

Farewell gathering for Liv Rebecca 16th May
Liv Rebecca is soon leaving us for a new position as project economist at the Faculty of Medicine. We would like to invite all of you to a farewell gathering on her very last day here at our department, on Wednesday, 16th May at 14.00 in the lunch room on the 4th floor. There will be cakes and coffee, hugs, speeches, laughter and tears.

Welcome all – be there!

Bebras – Norwegian version made by Mike and Fran

Bebras is an international initiative aiming to promote Informatics (Computer Science, or Computing) and computational thinking among school students at all ages. Participants are usually supervised by teachers who may integrate the Bebras challenge in their teaching activities. The challenge is performed at schools using computers or mobile devices. We are proud to inform you that our Professors Mike Fellows and Fran Rosamond have now made a Norwegian version of Bebras.

Horizon Lecture: Plasmonics: Photonic Nanoscience for Sustainability and Societal Impact

Photothermal effects can have a positive impact both on society and sustainability.

Professor Naomi Halas sheds light on the field of plasmonics in her Horizon lecture on 24 May at 16-18, Egget, The Student Centre.

"Do you know what to do in case of an emergency?"
Sikresiden.no (On the Safe Side) is a mobile-optimised website. It provides you with user-friendly training and advice on what you should do in emergency situations. Sikresiden.no is specially adapted to students and staff at universities and university colleges, among other things, by making the local emergency number at their institutions easily available. The information is available in Norwegian and English.

Have you registered vacation days? Are you ready to go?
Summer is soon upon us, and whether you are planning on spending all of it in sunny Bergen or making other arrangements, there is one thing you have to do right away: Register your vacation in PAGA. It is a requirement that everyone registers their holiday, and it is the general rule that all vacation days has to be taken within the year.

Not sure when you’ll be going? Register it anyway (you can change it later), and avoid running the risk of someone else deciding when you’re going on holiday. You will also be relieved from the stress of being followed up through emails and visits from the administration.

The deadline for registering the summer vacation has already passed, so please make it a priority. Further information on how to register vacation can be found here: http://pagaweb.b.uib.no/ansatte/5-ferie/

If you have any questions regarding vacation or the registration of vacation I PAGAWEB, please contact our local HR professional, Linda Vagtskjold, linda.vagtskjold@uib.no

Theatre: DER GÅR GRENSSEN! (THAT’S ENOUGH!)

Bring your friends and colleagues to the theatre and enjoy a humoristic and enlightening evening with neighbor disputes and delightful curses!

UiB-tickets are available for Thursday May 24th, at 19.00 – Lille Scene: Ticket price UiB only kr. 190,- (Ordinary price kr. 300,-)

Tickets can be purchased to this price up to and including May 11th.

Actress Ane Skumsvoll is deeply fascinated with neighbor disputes – what are we arguing about, and what have we been arguing about, through the ages. In this play, she looks further into issues such as border disputes, property borders, personal borders, transcending borders and of course boundless irritation over that damn neighbor. Skumsvoll also promises advice on planting and trimming thuja hedgerows, tips on how to remove unwanted trees, and of course a recipe on how to write a notification to your neighbors.

Book your UiB tickets here (Thursday May 24th) Tickets can also be ordered by phone 55 60 70 80 or by visiting the box office at the theatre.
